

Your Complete LPR Solution

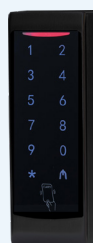

HP Elite Desktop
Runs on your network to process LPR images.

Network Camera
Takes high-resolution video to capture license plate numbers.

WebRelay
Opens and closes your boom gate once a plate is authorised.

Keypad
Allows access in the event that the system cannot read a plate.

Gateway
Required for keypads to connect to the network.

Axis Midspan
Used to power keypad mounting and installation accessories.

Mounting Pole
Mounting and installation accessories for the keypads.

Weatherproof Shroud
To protect your keypad in wet conditions.
